only wards with more than two cases will show last 7 days detail
direction of travel (DOT) compares current snapshot against previous

(current snapshot against previous snapshot)

Please note: numbers in recent days may rise, reflecting diagnostic and reporting turnaround time. All detail within this report is the latest data available prior to publishing (27/10/2021).

Week-to-week comparisons are based on the data available at the time each snapshot was published.

UPDATE: The vaccination uptake has been updated to include 12 to 15 year olds in the denominator. The ONS 2020 mid-year estimates for those 12 and over are now used. The numerator remains the total number of vaccinations given to people of all ages.
