GOVERNANCE & RESOURCES – 30 JULY 2025

CLERK'S REPORT

1. Banking Arrangements

The Town Clerk can confirm that the instructions from the meeting held on 12 February have been actioned and the accounts with Barclays have been closed.

2. Pensions Discretionary Policy

Further information was received from Bedfordshire LGPS and the policy was ratified by Full Council on 7 May 2025.

3. Jubilee Meadow Transfer

This has now been completed, subject to ratification by Full Council on 3 September 2025. The Public Realm Committee will be asked to review its management.

4. Local Government Services Pay Agreement 2025

Agreement has been reached on rates of pay applicable from 1 April 2205 covering the period April 2025-March 2026. The new pay rates are increased by 3.2% per annum. This will be backdated from 1 April 2025 and paid in salaries in August 2025.

5. Meeting with CBC CEO

A group of town clerks across CBC met with their CEO on 23 July to open a dialogue to improve relationships with officers at CBC. A further meeting is being scheduled for September 2025.

6. SLCC National Forum

The Town Clerk has been appointed to represent the Bedfordshire Branch of the Society of Local Council Clerks (SLCC) on the National Forum. The meetings are held quarterly, virtually, and the Town Clerk will use flexi time to attend.

7. Fleet Insurance

The Town Clerk has renewed the Town Council's fleet insurance with NFU Mutual following a series of quotes received from other suppliers. The annual premium is £5829.21. This is an increase from the previous year's premium of £5,329.91.

STOTFOLD TOWN COUNCIL

COMMITTEE:	GOVERNANCE AND RESOURCES
MEETING DATE:	30 JULY 2025
REPORTING OFFICER:	EMMA PAYNE, TOWN CLERK
REPORT TITLE:	OVERVIEW AND SCRUTINY COMMITTEE

1. PURPOSE OF THE REPORT

1.1 To consider the establishment of a new Overview and Scrutiny Committee that will meet quarterly to review and evaluate key services provided by the Town Council, including financial management, community facilities, and operational performance.

2. **RECOMMENDATIONS**

Members are asked to:

- a) Consider the proposal to establish an Overview and Scrutiny Committee.
- b) Review and amend, if necessary, the draft Terms of Reference (Appendix A).
- c) Recommend to Full Council the establishment of the Overview and Scrutiny Committee and adoption of its Terms of Reference.
- d) Agrees to commence recruitment of public members to serve on the committee.

3. BACKGROUND

- 3.1 The Local Government Act 2000 introduced the principle of overview and scrutiny in higher-tier authorities to improve transparency, accountability, and the effectiveness of decision-making. Although not a statutory requirement for town and parish councils, adopting a proportionate model can support:
 - Independent review of service delivery
 - Community confidence in council decisions and operations
 - Better understanding of value-for-money across council-run facilities and services
- 3.2 Given the Town Council's responsibilities—such as managing budget allocations, hall hire, cemetery maintenance, allotments, and recreational areas, a dedicated scrutiny function would provide a structured forum for performance review and public engagement.

4. FINANCIAL IMPLICATIONS

4.1 There are minimal direct costs associated with the establishment of the committee. Some administrative support may be required for agendas, minutes, and report preparation, which can be absorbed within existing staffing structures.

4.2 Should public recruitment require advertising; this could be met with the advertising budget.

5. IMPLICATIONS

Strategic Plan: Supports objectives related to transparency, governance, and service improvement.

Risk Management: Enhances oversight and early identification of underperformance or inefficiencies.

Legal: No legal obligation but aligns with principles of good governance.

Resources / Stakeholders: Staff time to support meetings and provide reports; public involvement to ensure accountability.

Financial: As noted above, minimal impact.

Contracts / Procurement: None directly.

Crime and Disorder: None directly.

Biodiversity and Environment: The committee could consider service impact in this area where relevant.

Equalities: Recruitment of public members will be undertaken through an open and inclusive process.

Residents Impact Assessment: Increases opportunities for residents to shape and review council services.

Appendix A – Draft Terms of Reference: Overview and Scrutiny Committee

Membership of Committee

- The Committee shall comprise eight members: four Town Councillors and four members of the public.
- The Chair shall be a Town Councillor elected by committee members at the first meeting of each municipal year. The Vice-Chair may be any member.
- Public members will be selected through an open application and interview process to ensure a broad representation of the community.
- Four members shall constitute a quorum.

Frequency of Meetings

- The Committee shall meet quarterly. Extraordinary meetings may be called by the Chair with agreement from the Proper Officer.
- All Committee meetings are open to the public and press, except by resolution where publicity would prejudice the public interest by reason of the confidential nature of the business (Public Bodies (Admissions to Meetings) Act 1960).

Decision/Delegated Powers

- This committee has no delegated authority; it can make recommendations to the Governance & Resources Committee or Full Council as appropriate.
- Findings and recommendations of the Committee shall be reported to the next available Governance and Resources Committee or relevant service committee, and subsequently to full Council where required.

Purpose and Scope:

- To monitor and scrutinise the delivery and performance of council services
- To review budget expenditure and value-for-money
- To consider operational efficiency across council facilities (e.g. hall hire, allotments, cemetery)
- To make evidence-based recommendations for service improvement
- To support transparency and public engagement in council operations

STOTFOLD TOWN COUNCIL

COMMITTEE:	GOVERNANCE & RESOURCES
MEETING DATE:	30 JULY 2025
REPORTING OFFICER:	EMMA PAYNE, TOWN CLERK
REPORT TITLE:	TOWN COUNCIL INVESTMENTS

1. PURPOSE OF THE REPORT

1.1 At this Committee's meeting held on 4 June 2025, the Town Clerk was tasked with investigating further investments.

2. **RECOMMENDATION**

- 2.1 Members are asked to:
 - a) Consider the investment options outlined in this report and determine whether to diversify the Council's investments further.
 - b) Decide whether to relocate the funds currently held in the Unity Trust Instant Access Account to an alternative account offering a higher interest rate.
 - c) Consider whether to maximise investment income as described in section 4, by placing a larger proportion of the precept into a suitable instant-access investment account and agree which provider should be used for this purpose.

3. INVESTMENT OPTIONS

3.1 Insignis

Insignis offers a single access platform to access a wide selection of competitive savings accounts from a range of carefully chosen bank and building societies, which adhere to the Town Council's Investment Policy. Eligible deposits are covered by FSCS Protection. In return, they take a % of the amount deposited. This can range from:

£250-500K	0.75%
£500K - £1.9m	0.2%
£2m +	0.15%

When the Town Council makes a deposit, the expected annual fee is set aside in a designated fee reserve, which can be viewed in the portfolio summary report. They draw fees from the reserve each month.

The Town Council's investments can be seen via a platform which would be accessible by authorised users and dual authorisation of all transfers can be used to ensure compliance with internal control statement.

Ware and Sevenoaks Town Councils are clients of Insignis.

3.2 CCLA

The Town Council already has an investment with CCLA through their Public Sector Deposit Fund (PSDF). Originally £1m was deposited and it is yielding 4.28% per month in interest. The PSDF was not designed as a long-term investment account, rather than an instant access account that pays a reasonable rate of return.

The Cautious Multi Asset Fund has a minimum £1K deposit. It is aimed to provide a total return (income plus capital growth) after costs of inflation (as measured by CPI) plus 2% per year over the long term (five years). As of 24/7/2025 CPI is 3.6% therefore this account would pay 5.6%. Investments can go down as well as up.

There is a third account, the Local Authorities Property Fund, which is open mainly to Principal Authorities. If a parish or town council wishes to open an account, it would require an independent report assessing its suitability to invest in this fund which would cost £1K. Any deposit would then be for a minimum term of 5 years.

3.3 Arlingclose

This organisation works on a retainer contract. The duration of the contract is negotiable depending on the duration of the investment. The average time is 3 years with a term lasting anything from 1-3 years. The range of the retainer would depend on the level of service with a range from £8K-£13K depending on level of advice sought.

Clients include Chippenham and Swanage Town Councils.

3.4 Current Investments

Unity Trust	Current T2	£565,839.62	0%
Unity Trust	Instant Access	£1,088.027.53	2.25%
CCLA	PSDF	£1,056,474.86	4.28%
Barclays	Business Account	£8,005.34	1.25%

4. INCREASE INVESTMENT INCOME

- 4.1 The Town Clerk would like to see as much income as possible received from investments. To this end, it is proposed that when the precept is received in April and September, the majority of it is immediately invested in a short term, instant access account to increase investment income. This could be a CCLA account or another account, depending on the decision of this Committee.
- 4.2 Then every month the Town Clerk and Finance Officer would forecast the Council's expenditure for the month and organise a transfer from the relevant instant access account to the Unity Trust bank account which would be duly processed by the relevant Members with authority to transfer funds.
- 4.3 While maximising investment income is desirable, the Council must maintain sufficient liquidity to meet day-to-day operational needs. Over-investing in accounts with limited access could delay payments to suppliers, staff, or contractors.

- 4.4 To mitigate this:
 - Monthly cash-flow forecasting will continue to be undertaken by the Town Clerk and Finance Officer.
 - Only surplus funds beyond immediate operational requirements will be invested.
 - Instant-access or short-term accounts will be prioritised for the bulk of reserves to ensure funds can be recalled quickly if required.

5. FINANCIAL IMPLICATIONS

5.1 Interest earnt for the town council in the last 3 years is:

2024/25	£73,943
2023/24	£53,283
2022/23	£19,239

6. IMPLICATIONS

Strategic Plan -Supports the Council's aim to manage funds prudently and maximise returns for long-term sustainability.

Risk Management - Investments carry risk; mitigated by FSCS-protected accounts, provider diversification, dual authorisation, and regular cash-flow reviews.

Legal - All investments will comply with relevant legislation. Independent advice will be sought if required (e.g. Property Fund).

Resources / Stakeholders - No staffing changes. Management by the Clerk and Finance Officer within existing capacity.

Financial Implications -Expected to increase interest income. Platform fees are offset by higher returns. No adverse medium-term budget impact.

Contracts / Procurement - Any services will follow Financial Regulations and, where needed, be supported by legal review.

Crime and Disorder - No impact identified.

Biodiversity and Environment - No direct impact; ethical and environmental policies of providers will be considered.

Equalities - No adverse impact on protected groups.

Residents Impact Assessment - Improved returns help maintain and enhance services without increasing the precept.

Sustainability / Climate Impact

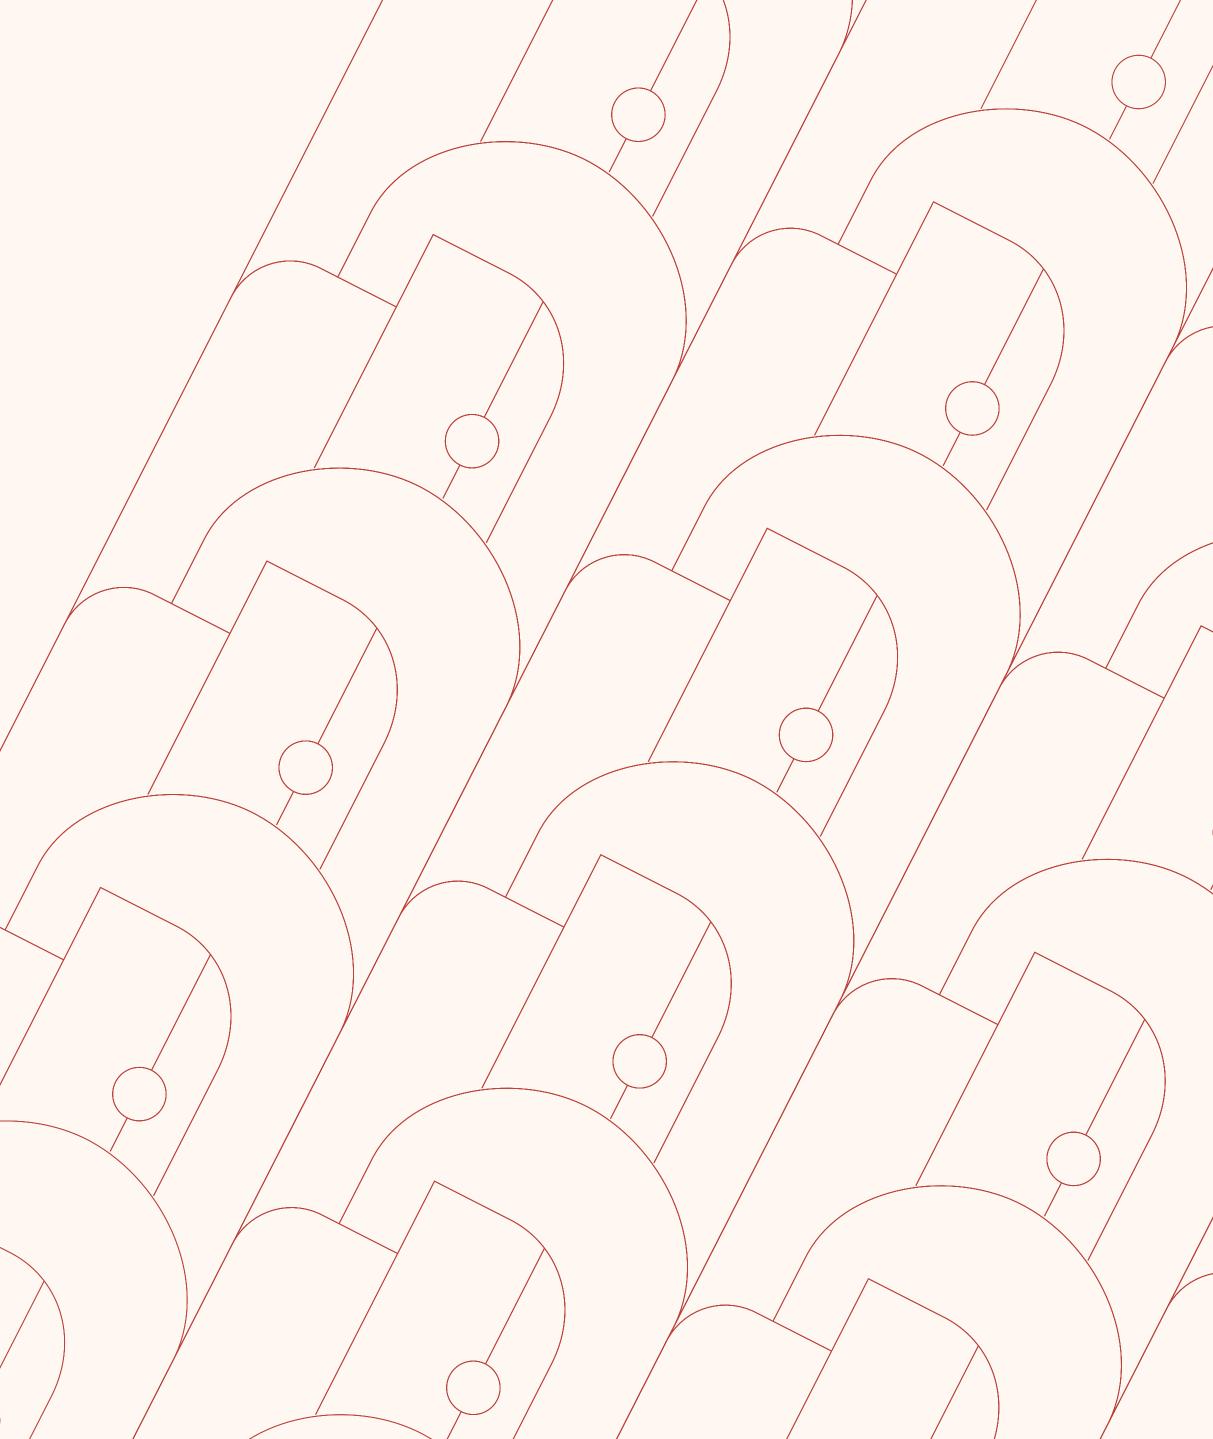

Ethical or sustainable investment options will be prioritised where possible.

Data Protection and Privacy

Only necessary business information will be shared, in line with UK GDPR and Council policies.

How we keep you protected (and support risk management)

FCA authorised

Insignis is authorised and regulated by the Financial Conduct Authority (FCA) for the provision of payment services.

As a Payment Initiation Service Provider (PISP) we can only initiate payments from your nominated account under explicit instruction from an authorised representative such as a director or signatory.

As an Account Information Service Provider (AISP) we can access and consolidate financial data from your various savings accounts, with your consent, to provide a comprehensive view of your cash holdings.

Security

Dual authorisation adds an extra layer of security by requiring two approvals for transactions, reducing the risk of fraud and errors. This control helps organisations strengthen oversight and ensure compliance with internal financial policies.

Beneficial ownership

Funds are held in your organisation's name and can only be transferred from and to your linked account. Insignis acts as a trustee under a bare trust structure which means that you retain full beneficial ownership of your deposits and any interest earned at all times.

CREDIT UNIONS

"Before Insignis we spent a great deal of time filling in endless forms, getting together the right signatories, and researching where to place our funds, during which time the markets might well have moved. Signing up with Insignis has removed all of that, and we are now able to place funds in a matter of minutes, with no additional forms to complete. We have access to the best rates and choose only from institutions that meet our investment policy."

Lisa Hughes C00 The River Learning Trust

"The Insignis platform was easy to set up and is simple to use. It reduces risk by providing opportunity to spread funds over multiple FSCS protected banks, without the need to go through time-consuming account opening processes for each bank. There are a lot of banks available offering easy access, notice, and fixed term products helping us to maximise the rate of interest, meaning more money going back into teaching and learning."

Mike Hobbs **Finance Director** St Thomas Aquinas Catholic Multi Academy Trust

"Opening an account with Insignis was simple and straightforward! The platform is easy to operate. I now have the latest bank rates at hand and have increased my FSCS protection! I would highly recommend Insignis to anyone in the education sector looking for a simple way to access and manage a range of bank accounts without the hassle of visiting multiple banks and fulling in endless forms."

How our fees work

Fees are calculated daily as a percentage of total deposits held on the platform and are collected monthly in arrears at the end of each month. There are no setup, administration, or transaction fees, regardless of deposit size. As an intermediary financial service, our fees are exempt from VAT. The full savings rates offered by our deposit-takers are passed directly to you without deductions.

Illustration Example

Mrs P has a deposit amount of £500,000 with a fee rate of 0.20%. The Insignis Cash fee reserve is £1,000, so Insignis Cash places £499,000 into the agreed deposit accounts. Each month, we take £83.33 in arrears for the arrangement of the fee. Mrs P can log into the Insignis Cash Platform and review her portfolio, where the fee reserve is shown in her portfolio summary.

For clients who leave the service within a 3-month period, there will be a minimum charge of one quarter's fees applied.

The Public Sector Deposit Fund

Fund fact sheet – 30 June 2025

Investment objective

To maximise the current income consistent with the preservation of principal and liquidity.

Investment policy

The fund will be invested in a diversified portfolio of high-quality sterling denominated deposits and instruments. All investments at the time of purchase will have the highest short-term credit rating or an equivalent strong long-term rating. The fund is actively managed, which means the authorised corporate director uses their discretion to pick investments, in pursuit of the investment objective.

The weighted average maturity of the investments will not exceed 60 days. The fund will not invest in derivatives or other collective investment schemes.

Who can invest?

Any public sector organisation can invest in the fund, but it may be marketed to any retail or professional client. Share class 4 is reserved for public sector organisation investment only.

Sustainability approach

We believe that the primary role of sustainable investment is to drive positive change and this is best achieved by pushing companies to do more to address the major challenges facing us today. The fund is managed in line with our sustainability approach for cash funds available at: www.ccla.co.uk/about-us/policies-andreports/policies/sustainability-approach-cash-funds.

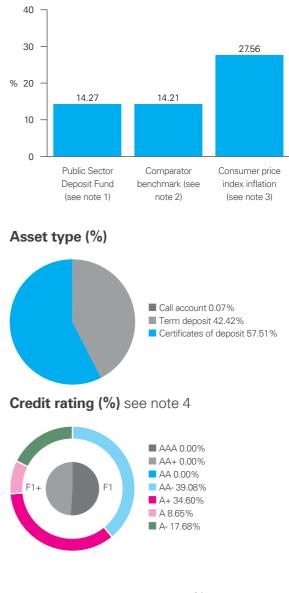

The FCA has introduced sustainable investment labels to help investors find products that have a specific sustainability goal. This product does not have a UK sustainable investment label because it does not have a sustainability goal.

Read our summary of SDR, the investment labels and our overall approach at: www.ccla.co.uk/sustainability. Fund-level information can be found at: www.ccla.co.uk/funds/public-sectordeposit-fund.

Market update

On 19th June the Monetary Policy Committee (MPC), voted to maintain the Official Bank Rate (OBR) at 4.25%. The hold in rates was highly anticipated however the vote breakdown was a touch more dovish than many predicted with three of the nine members voting for a cut citing loosening in the labour market outweighing the upside risks to inflation as their reasoning.

Inflation data for May was much in line with Bank expectations, falling slightly to 3.4% with the previously stubborn services inflation falling from 5.4% to 4.7%. With inflation expected to peak by September, members focus shifted towards other areas of the economy, particularly employment which declined by 109,000 in May, the largest drop since the height of the Covid pandemic. With little sign of an increase in household consumption, low GDP growth and a tightening of the labour market, several members are beginning to consider increasing the speed of cuts to combat potential economic weakness in the coming months.

The committee next meets in early August after the labour market figures are published for July. It is expected that there will be a further cut, continuing the "gradual and careful" approach that has seen 0.25% cuts quarterly however the vote breakdown may signal any change to the potential speed of any further cuts with most expecting to see a clear division between the dovish and hawkish members.

Risk warning and disclosures

This document is a financial promotion and is for information only. It does not provide financial, investment or other professional advice. The market update contained in this document represents CCLA's house view and should not be relied upon to form the basis of any investment decisions. To make sure you understand whether our product is suitable for you, please read the key investor information document and the prospectus and consider the risk factors identified in those documents. CCLA strongly recommend you get independent professional advice before investing. Under the UK money market funds regulation, the Public Sector Deposit Fund (PSDF) is a short-term low volatility net asset value money market fund. You should note that purchasing shares in the PSDF is not the same as making a deposit with a bank or other deposit taking body and is not a guaranteed investment. Although it is intended to maintain a stable net asset value per share (where £1 invested in the PSDF remains equal to £1 in value in the PSDF), there can be no assurance that it will be maintained. The value of the PSDF may be affected by interest rate changes. The PSDF does not rely on external support for guaranteeing the liquidity of the fund or stabilising the net asset value per share. The risk of loss of principal is borne by the shareholder. Past performance is not a reliable indicator of future results. The value of investments and the income from them may fall as well as rise. You may not get back the amount you originally invested and may lose money. Any forward-looking statements are based on our current opinions, expectations and projections. We may not update or amend these. Actual results could be significantly different than expected. The PSDF is authorised in the United Kingdom and regulated by the Financial Conduct Authority as a UK UCITS Scheme and is a Qualifying Money Market Fund. Issued by CCLA Investment Management Limited (registered in England and Wales, number 2183088, at One Angel Lane, London EC4R 3AB) who is authorised and regulated by the Financial Conduct Authority. CCLA Cautious Multi-Asset Fund

Investment objective

The fund aims to provide a total return (income plus capital growth) after costs, of inflation (as measured by the UK consumer prices index) plus 2% per year over the long term (defined as five years). Being 'Cautious', the fund will invest no more than 50% by value in company shares (equities).

Investment philosophy

The fund invests in a broad range of assets. As an actively managed multi-asset fund, the amount it invests in different asset classes will vary over time depending on economic/market conditions and our expectations of future returns and volatility. Where we invest in companies, we seek high-quality companies believing those that can grow returns consistently at valuations that are attractive, should lead to outperformance over the long term. We look for companies which in our opinion:

- demonstrate an enduring competitive advantage, measured by their cash flow return on investment and a strong track record of shareholder value creation
- benefit from clear long-term growth trends
- benefit from superior financial strength, with a strong balance sheet
- are trading at valuations that are attractive.

Sustainability approach

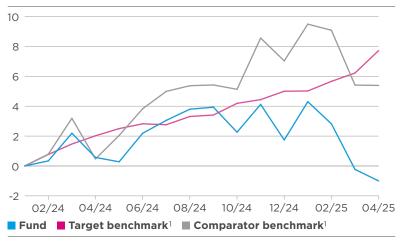

We believe that the primary role of sustainable investment is to drive positive change and this is best achieved by pushing companies to do more to address the major challenges facing us today.

We aim to manage our clients' investments in a way that aligns with their values and to do this we consider environmental, social and governance (ESG) factors in our listed equity investment process and go beyond the boundaries of traditional investor engagement to drive change. The FCA has introduced sustainable investment labels to help investors find products that have a specific sustainability goal. This product does not have a UK sustainable investment label because it does not have a sustainability goal.

3 Infrastructure: assets that facilitate the functioning of society with the potential for steady cash flows (energy-related & social).

4 Contractual: assets generating contracted cashflows over a specific period and typically secured against assets.

5 The ACD may waive this minimum level at its discretion.

6 The estimated ongoing charges figure (OCF) includes the annual management charge (AMC) and other costs and expenses of operating and administering the fund such as depositary, custody, audit and regulatory fees. Where relevant, the OCF also includes synthetic charges. Synthetic charges are the effect that costs suffered as a result of investment in relevant underlying funds or similar investments have on the fund. The OCF does not include portfolio transaction costs. Further information on costs and expenses is available on our website.

7 The AMC is deducted from capital. This has the effect of increasing the distributions for the year and restricting the fund's capital growth to an equivalent extent.

8 The historic yield reflects distributions declared over the past twelve months as a percentage of the share price as at 30 April 2025. Investors may be subject to tax on their distributions.

Sustainability update

We assess the environmental, social and governance criteria of companies because we believe that a combination of legislation, regulation and changing societal preferences will impact negatively on the most unsustainable business models.

Acting as an agent for change

We believe that the best way to change company activities for the better is to be an active owner and to push for proactive public policy.

Example: Sustainable Development Goal 8 Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

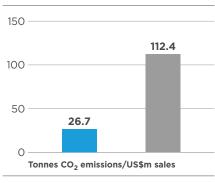

In March, the Home Office published updated statutory guidance for businesses on how to tackle modern slavery in supply chains. The guidance was developed with support of the Forced Labour Forum, a diverse group of stakeholders from business, civil society, academia and trade unions, including CCLA. We were delighted to see that the guidance references CCLA's Modern Slavery UK Benchmark.

Meanwhile, our engagement with investee companies on modern slavery continues. We also worked on building out a new Modern Slavery Global Benchmark and sent modern slavery scorecards to 23 of the Fund's holdings. This led to meetings with two holdings during the quarter: Coca-Cola Co and Texas Instruments. We will report on progress throughout the year.

Climate-related risk disclosures for listed equities

Data coverage: The carbon and climate metrics set out below ONLY cover the fund's holdings in listed equity investments, which represent **29.5%** of the value of the fund. Therefore, the figures stated do not represent the fund's total carbon footprint/climate related impact for these metrics and are not comparable with other funds. Lower data coverage results in reduced reliability for these metrics.

Carbon footprint⁹

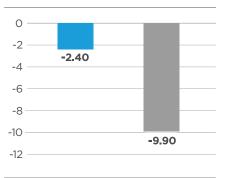

Fund

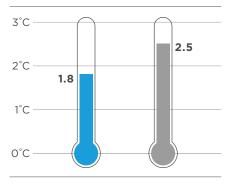

Source: MSCI.

Climate value at risk (%)¹⁰

Implied temperature rise (°C)¹¹

- 9 Measures the carbon efficiency of a portfolio, defined as the ratio of carbon emissions for which an investor is responsible to the sales for which an investor has a claim by their equity ownership. This measure allows investors to know how many emissions units per dollar of sales are generated from their investment. Carbon footprint data relates to Scope 1 and Scope 2 emissions only.
- 10 Is a forward-looking measure of risk which estimates the amount of loss the portfolio may experience in future due to the impacts of climate change. The model used to calculate this measure is the REMIND 1.5°C NGFS Orderly transition scenario with an average physical risk scenario model. For further information on the model used, please visit www.ngfs.net/ngfs-scenarios-portal.
- 11 Implied Temperature Rise (ITR) provides a portfolio level number in degrees of Celsius demonstrating how aligned the companies in the portfolio are to global temperature goals. It is a forward-looking metric that shows how a company aligns with the ambitions of the Paris Agreement - which is to keep a global temperature rise this century well below 2°C above pre-industrial levels and to pursue efforts to limit the temperature increase even further to 1.5°C.

How do I assess the performance of the fund?

Investors can assess the fund's performance against the fund's target benchmark. The fund's performance can also be assessed against the fund's comparator benchmark. The comparator benchmark has been designed to broadly reflect the risk/return profile of the fund and its underlying assets portfolio over the long term.

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CCLA Cautious Multi-Asset Fund

A sub-fund of CCLA Investment Funds ICVC. Income Class C (ISIN: GB00BRSDDP53) This fund is managed by CCLA Investment Management Limited (the ACD).

Objectives and Investment Policy

The fund aims to provide a total return (the combination of capital growth and income) after costs, of inflation (as measured by the UK Consumer Prices Index) plus 2% per annum over the long term (defined as any rolling period of 5 years). The fund is classified as 'Cautious' as it will not invest more than 50% in value of its scheme property in equities. There is no guarantee that the objective of the fund will be achieved over any time period. Capital is at risk.

The fund will invest in a broad range of assets to achieve its investment objective including shares of companies (known as equities), issued by companies anywhere in the world (including the UK), fixed/floating interest securities (known as bonds) issued by governments and their agencies, by companies and other issuing bodies, infrastructure related assets (indirectly), money-market instruments, cash, and emerging markets (e.g. India, Taiwan and Korea) securities. Typical exposure to emerging markets will be 5% but may be up to 20%. The proportion of the fund's portfolio (by value) in its two likely main asset classes will be as follows: company shares (excluding any holdings in UK investment trusts or other closed-ended funds), 20%-50%; and bonds, 0%-60%.

Exposure to these assets may be via direct holdings or indirectly through investment in other funds (including those managed and operated by the ACD and its associates). Such funds may include exchange-traded funds, closed-ended investment companies (including UK investment trusts) and open-ended funds.

The fund is actively managed which means the ACD uses their discretion to pick investments seeking to achieve the investment objective. The proportion of the fund invested in different asset classes will vary over time in response to the economic and market environment and the ACD's expectations of future returns and volatility. Where the fund investing strategy by investing in companies which, in its opinion, meet its quality investment criteria, which includes companies with higher-than-average returns on invested capital, good free cash flow generation and strong balance sheets. This does not preclude investment in companies not displaying these characteristics.

Risk and Reward Profile

Lower risk Typically lower rewards				Typically		er risk wards	
		2	3	4	5	6	7

() The fund is rated 4 because its simulated value has shown medium rises and falls in value historically.

The risk and reward rating is based on historical data and may not be a reliable indicator of future risks or rewards. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean 'risk free'.

The risk and reward indicator does not take account of the following risks of investing in the fund:

The ACD takes a long-term view of the requirement to grow real returns and focuses on constructing a portfolio to offset risks. The fund will not have a concentrated portfolio or be restricted by sector or industry. The fund may only use derivatives (financial instruments whose value is linked to the price of another asset) for efficient portfolio management purposes such as to reduce risk or costs and/or to generate extra income or growth.

This product does not have a UK sustainable investment label. Sustainable investment labels help investors find products that have a specific sustainability goal. The fund does not use a sustainable investment label because it does not have a sustainability goal. However, the listed equities held in the fund are managed in line with CCLA's 'Act, Assess, Align' approach to sustainability. This includes acting as an agent for 'change', assessing environmental, social and governance standards and for other assets held in addition to equities, investing in a way that we believe is aligned with the values of our clients.

The implementation of this approach involves the application of targeted investment restrictions. These restrictions are applied based upon data points selected by CCLA and in accordance with our values-based screening policy available on our website, www.ccla.co.uk/about-us/policies-and-reports. Please read the fund's approach to sustainability document. Full details of our 'Act, Assess, Align' approach including the investment restrictions are set out in the relevant sub-fund section of the fund's prospectus. Both are available on our website, www.ccla.co.uk/funds/ccla-cautious-multi-asset-fund.

In addition, the listed equity component of the fund is managed in line with CCLA's goal to achieve net-zero emission listed equity portfolios no later than 2050. Full details of this are available on our website,

www.ccla.co.uk/sustainability/initiatives/climate-action.

Additional Information:

This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

You can buy and sell shares in the fund on each business day.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund.

The fund aims to distribute available income every 3 months.

Market fluctuation risk – The value of investments and the income from them may fall as well as rise. Shareholders may not get back the amount originally invested and may lose money.

Currency exchange rates risk – The fund may have underlying investments that are valued in currencies that are different from GBP. Exchange rate fluctuations will impact the value of your investment.

Emerging market risk – Investing in emerging markets involves a greater risk of loss due to greater political, tax, economic, foreign exchange, liquidity and regulatory risks, among other factors. There may be difficulties in buying, selling, safekeeping or valuing investments in such countries. **Credit risk** – The fund invests directly or indirectly in bonds which are issued by companies or governments. If these companies or governments experience financial difficulty, they may be unable to pay back some or all of the interest, original investment or other payments that they owe. If this happens, the value of the fund may fall. Investment returns on bonds are sensitive to trends in interest rate movements. Such changes will affect the value of your investment.

Counterparty risk – The fund could lose money if an entity with which it does business becomes unwilling or is unable to meet its obligations to the fund.

Derivative risk – Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.

Charges for this Fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **ongoing charges** is an estimate of the charges because the fund was launched on 16 February 2024. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of any entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

A dilution adjustment may be made on a purchase or sale of shares in the fund. This will change the price for buying or selling shares, with the aim of mitigating the effects of dealing and other charges the fund incurs.

For more information about charges, please see the section titled "Fees and expenses" of the fund's prospectus.

Past Performance

For the purposes of the specific rules governing this document, the ACD must have data for at least one complete calendar year in order to provide a past performance chart. The fund launched on 16 February 2024. This share class started to issue shares on 16 February 2024.

The Local Authorities' Property Fund

Important information

This document is intended to provide limited information about the Local Authorities' Property Fund (the fund). Investors in the fund must read the scheme information and the key information document. Investors must not rely on this document in making investment decisions. This document does not constitute the provision of financial, investment or other professional advice. We strongly recommend you seek independent professional advice prior to investing.

Past performance is not a reliable indicator of future results. The value of investments and the income derived from them may fall as well as rise. Investors may not get back the amount originally invested and may lose money.

Investment in the fund is for eligible local authorities only.

Key facts

- The Local Authorities' Property Fund is established by a scheme approved by HM Treasury under section 11 of the Trustee Investments Act 1961.
- The fund aims to provide a high level of income and longterm capital appreciation from investments principally in the UK commercial property sector.

- The fund is only available to eligible local authority investors.
- The fund has direct holdings in property, which are inherently illiquid. There is a risk that in adverse conditions the ability of investors to redeem from the fund will be suspended.
- The fund has a minimum redemption notice period of 90 days. This can be increased to up to six months. The fund is therefore not suitable for investors that might have a need for immediate liquidity in their investments.
- Investors must be able to be categorised as professional clients or seek independent financial advice before investing.
- Potential investors in the fund must read the fund's scheme information and key information document. Potential investors should pay particular attention to the risks of investing in the fund.
- The trustee is the Local Authorities' Mutual Investment Trust (LAMIT). LAMIT is controlled by members and officers appointed by the Local Government Association, the Convention of Scottish Local Authorities, the Northern Ireland Local Government Officers' Superannuation Committee and investors in the fund to represent unitholders. As fully independent trustee, LAMIT approves the investment strategy and the risk profile of the portfolio and reviews performance.

Fund facts

Important information on commercial property investment

Commercial property refers to buildings that are used by businesses. There are four main types of commercial property:

- Retail shops, shopping centres, retail warehouses
- Offices including business parks
- Industrial warehouses distribution centres, factories
- Other assets hotels, sports facilities, car parks

Potential benefits of investment

Income

Income is the main source of return over the long-term for commercial property investors. Income can rise over time to offset inflation and to reflect higher capital values and asset improvements. Rents are set out in leases, formal legal contracts which fix the income payment for a term determined by the agreement

Capital gains

Capital values can rise over time to reflect improvements to the property, increases in rents, general economic conditions.

Risks associated with the sector

 Income is not guaranteed. Tenants may experience difficulties, assets may become vacant, economic conditions could result in a general decline in rental levels.

- Capital values can decline. This can be caused by a wide range of factors including economic conditions, sector trends or factors relating to an individual asset. Lower values may persist for some time and so investors must have an appropriate investment horizon.
- Liquidity. Commercial property is an illiquid asset class and selling assets can take time. In addition, sales can be delayed should the Manager determine that a disposal at prevailing prices was not in the best interest of all investors.
- Other risks include those associated with changes in laws and local regulations, the risk of a failure by a counterparty and environmental and third-party risks, all of which can be significant.

Potential investors should see the fund's scheme information document for a full list of the risks associated with investment in the fund.

STOTFOLD TOWN COUNCIL

COMMITTEE:	GOVERNANCE AND RESOURCES
MEETING DATE:	30 JULY 2025
REPORTING OFFICER:	EMMA PAYNE, TOWN CLERK
REPORT TITLE:	VAT PARTIAL EXEMPTION

1. PURPOSE OF THE REPORT

1.1 To seek approval to commission a VAT partial exemption calculation for the previous financial year and to note the implications and compliance benefits of undertaking this work.

2. **RECOMMENDATION**

It is recommended that Members

- a) Approve the commissioning of a VAT partial exemption calculation for the current financial year.
- b) Chose a provider from the quotations set out below.

3. BACKGROUND

- 3.1 The Town Council is VAT-registered and reclaims input VAT on the majority of its purchases. However, some of the Council's activities generate exempt income (for example, room hire and certain community facilities).
- 3.2 Under HMRC regulations, where a council has exempt income, it must carry out an annual **VAT partial exemption calculation** to determine whether it remains within the HMRC de minimis limit and can continue to reclaim VAT in full.
- 3.3. Undertaking this calculation ensures:
 - The Council is fully compliant with HMRC requirements.
 - Any risk of having to repay VAT is identified and managed early.
 - The Council can make informed decisions about future service delivery and pricing.
- 3.4 Failure to undertake this calculation could lead to non-compliance with HMRC, potential financial penalties, and difficulty in accurately planning budgets.

4. FINANCIAL IMPLICATIONS

- 4.1 All three contractors were asked to provide prices for the following:
 - Undertaking a 2024/25 partial exception calculation.
 - Supporting the application for the Town Council's option to tax at the Greenacre Centre.

4.2 Quotations have been received as follows:

Contractor A

- Undertaking the 2024/25 partial exemption calculation. My suggestion is that when undertaking the calculation, we also provide you with the result in an Excel file, with a brief explanation of the process that we have followed. This would then give you the opportunity to undertake future calculations yourself if you wanted although of course we would be happy to continue doing them for you.
- Opting to tax the Greenacres Centre. We would provide a note fully explaining the process, including the formal decision which the Council needs to take and record, and the process for submitting forms to HMRC. We would then determine whether HMRC permission was required and complete the appropriate forms for the Council to submit.

Our fee for the partial exemption work as above would be £1,575 plus VAT, and if you appoint us for this, we would be happy to do the option to tax work for no further charge. Alternatively, if you wanted us to just undertake the option to tax work in isolation, our charge would be £750 plus VAT (this is our minimum consultancy fee, to take account of the associated setup and other admin costs for arranging and invoicing for consultancy).

Contractor B

For those using the Rialtas accounting software the fee for a basic (i.e. Short Form) calculation is £258.50. Should the shortform calculation exceed the de-minimus limit and require a detailed summary, we will contact you to discuss the way forward and advise on any additional fees that will apply.

For those who we have already established a Special Scheme calculation, (i.e. a detailed calculation) agreed with HMRC, the fee will be £511.50. Should there be any issues raised from the original calculation we will then consult with you to discuss our concerns and agree the way forward (including an estimation of further fees) – all fees quoted are exclusive of VAT.

There was no price for assisting the town council with the registration of the Greenacre Centre for VAT.

Contractor C

We would be happy to undertake a remote VAT partial exemption calculation for 2024/25 based on budget structure, including apportionment at cost centre (and occasionally budget line), level for a **fixed fee of £375 plus VAT**.

If the calculations show that the council is over the £7,500 threshold and needs additional work (for example, analysis at invoice level) to minimise the VAT lost, we can either guide you through that or provide an additional quote for extra work. In most cases it's cheaper for this to be done by council staff, who are much more familiar with their purchase details.

This fee does not include: - attending any meetings (unless stated)

- any travel
- consultation with stakeholder groups
- representing the council to HMRC
- rescuing the council if they ignore the advice given

If you intend to opt to tax a building, it just needs a formal decision by the council or a committee, then filling in a form. I hope that the previous consultants have explained why they made the recommendation and what you need to do. If you want us to check the form and you are engaging us to do the partial exemption calculation, we will simply charge an extra hour at £125 plus VAT.

If you weren't engaging us to do the partial exemption calculation, our minimum fee for a new engagement is £250 plus VAT.

4.3 The costs of this are to be met from Professional Support Budget (61/632)

5. IMPLICATIONS

Strategic Plan: Supports the Council's priority to managing public funds prudently and ensuring compliance with statutory requirements.

Risk Management: Reduces the risk of HMRC challenge or the need to repay VAT. Ensures robust financial governance.

Legal: Helps demonstrate compliance with VAT legislation and HMRC guidance. Resources / Stakeholders: No significant impact on staff resources beyond provision of financial information to the appointed provider.

Financial Implications: As above, one-off professional fees within budget. Contracts / Procurement: Appointment of a specialist provider in line with Council

financial regulations.

Crime and Disorder: No implications.

Biodiversity and Environment: No implications.

Equalities: No implications.

Residents Impact Assessment: Ensures that public funds are protected,

supporting the Council's ability to deliver services efficiently.

Data: No personal data will be shared.

REPORT TITLE:	WANDERBUS FUNDING

1. PURPOSE OF THE REPORT

To consider a request for funding towards a replacement Wanderbus

2. **RECOMMENDATION**

2.1 Members are asked to consider the request and advise the Town Clerk how they wish to proceed.

3. BACKGROUND

- 3.1 The Wanderbus is a not-for-profit organisation set up to provide weekday scheduled bus services for the general public in and around Shefford, including Stotfold, to take them to/from local and regional town centres and shopping centre. They currently operate two 16-seater buses, and try and replace each bus every 7 years, before repairs become uneconomic.
- 3.2 They have not approached the Town Council for a grant application, rather they are making the town council aware that they'd like a contribution in any future budgetary planning as they are planning to purchase the bus in 2026/27.

4. FINANCIAL IMPLICATIONS

4.1 Previous grant applications have been received from this organisation:

2016/17	Vehicle running costs £1500
2017/18	Vehicle running costs £1500
2018/19	Vehicle running costs £1500

5. IMPLICATIONS
